Heraeus Limited Hong Kong on LPPM Good Delivery List for Palladium

Heraeus Limited in Hong Kong (HLH) succeeded in its LPPM Good Delivery application for Palladium and has been added to the LPPM Palladium Good Delivery List with effect from October 24, 2011.

The London Platinum and Palladium Market (LPPM) is a renowned trade organization, the purpose of which is to promote professional trading of both platinum and palladium metals in London.

Refiners who are qualified to be listed on the Good Delivery List, require to conform with the LPPM's strict specification like weight accuracy, fineness, appearance and have to proof the ability to do excellent assays. The LPPM also considers aspects of long term viability for granting the Good Delivery Status to an applicant.

After the inclusion on the LPPM Good Delivery List for Platinum since 2008, Heraeus Limited is now remarkably the first refiner in Greater China to be accredited by the LPPM both in Platinum and Palladium and the first refiner to be also accredited by the London Bullion Market Association (LBMA) Good Delivery List on both Gold (2006) and Silver (2010).
