

Heraeus Electro-Nite (UK) Ltd

Quality, Environment Safety & Health (QESH) Policy Statement

Heraeus Electro-Nite aim to be the world's leading supplier of systems for the measurement and control of molten metal.

Our Goals

- To have zero reportable accidents, zero waste, zero pollution and to produce all products right first time, every time.
- To use an accredited Integrated Management System as a QESH framework, and continually improve through the regular review of its key performance indicators and by setting challenging objectives and improvement plans.

Our Commitment

- To meeting all applicable quality, environmental, health and safety legislation, and other requirements, including all stakeholder requirements under any environmental permits.
- To prevent injury, ill health, pollution and waste in everything we do.

Our Philosophy

- To communicate the quality, environmental, health and safety policy, objectives and improvement plans to all relevant employees to improve understanding, awareness, and to clearly demonstrate responsibility and accountability within the organization.
- To review this policy annually to ensure its suitability based on changes in legislation, company strategy and best practice.
- To ensure our Policy remains in line with the [Global Heraeus Quality Policy](#)
