TC 7303 is a pure Ag top conductor which provides excellent compatibility with Heraeus tape system of CT 700 and CT 800 during the co-firing process.

Key Benefits

- The paste is optimized for screen printing of conductor tracks
- It may readily be used to print fine line patterns
- After firing, the paste can easily be soldered
- Free of lead, nickel, cadmium and phthalate
- REACH and RoHS compliant

Processing

1) Spatulate well prior to processing.

   When stored in a refrigerator: The paste should have acquired room temperature before being opened, to avoid condensation.

2) Print through a 200 – 325 mesh stainless steel screen.

3) Level at room temperature for 5 – 10 minutes.

4) Dry at max. 80 °C for 10 – 30 minutes.

5) Fire at 850 – 865 °C (peak) for up to 30 minutes, and with a total firing cycle time up to 12 hours (most often practicable in a box oven).

Typical Properties (Paste)

<table>
<thead>
<tr>
<th>Form</th>
<th>Pseudoplastic paste</th>
</tr>
</thead>
<tbody>
<tr>
<td>Viscosity</td>
<td>40 – 65 Pas (25 °C, D = 75/s)</td>
</tr>
<tr>
<td>Solid Content</td>
<td>80.0 % ± 1.0 %</td>
</tr>
<tr>
<td>Shelf Life</td>
<td>12 months from date of shipment with correct storage (in a dry, cool (5 - 25 °C) and dark place with container tightly shut).</td>
</tr>
</tbody>
</table>

Typical Properties (Fired)

<table>
<thead>
<tr>
<th>Fired Film Thickness² (FFT)</th>
<th>8 – 16 µm</th>
</tr>
</thead>
<tbody>
<tr>
<td>Resistivity²</td>
<td>≤ 5 mΩ /□ (FFT: 12 µm)</td>
</tr>
<tr>
<td>Line Definition³</td>
<td>≥ 150 µm</td>
</tr>
</tbody>
</table>

Compatibility

- Tapes: CT 700 Series
- CT 800 Series
Legend:

1) Typical properties based on laboratory test methods. For optimum results all materials should be fired in a profiled furnace supplied with dried, hydrocarbon and other contaminant free air (PP-1).

2) Measured after printing on alumina 96% with a 325 mesh stainless steel screen; screen thickness and emulsion thickness combined was c. 75 µm, and the resultant printed track was 500 µm wide.

3) Measured on 13” x 13” prints with 325 mesh stainless steel screen; screen thickness and emulsion thickness combined was c. 75 µm.

4) REACH compliant according to the latest ** Annex XIV to Regulation (EC) of the European Parliament and of the council on the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH") by European Chemicals Agency and its subsequent amendments; the material does not contain any substance listed in Annex XIV.

5) RoHS compliant according to the latest ** Directives (European Union) of Restriction of Hazardous Substances ("RoHS") and its subsequent amendments (including the exceptions related to Pb)

* See the data sheet issue date (DD/MM/YY) as reference of validity of latest edition which is available on request.
