The LTR4300H series is a Pb and Cd free polymer resistor system designed for printing and curing over a Heraeus polymer dielectric on a variety of substrates. The LTR4300H series has been formulated specifically for heater applications where high operating temperatures are required. LTR4300R provides stable resistance values when cured at low temperatures. The LTR4300H series is compatible with Heraeus low temperature dielectrics and conductors.

1. Processing Conditions: Termination: LTC301 cured at peak temp of 150 °C for 30 minutes. Resistor size 100 square serpentine pattern printed with 280 mesh screen to cured film thickness of 23-27 μm LTD5101 and 3003 Aluminum
2. Shipping specifications

**Key Benefits**

- REACH1 and ROHS2 compliant
- Stable resistance values
- Compatible with Heraeus low temperature conductor and dielectric systems
- Designed specifically for heater applications
- Can operate up to 250 °C with stable resistance
Technical Data Sheet

50mohm/sq to 100ohm/sq Polymer Resistor System

Recommended Processing Guidelines

Printing
290 – 325 stainless steel mesh or nylon screen, 0.3 – 0.5 mil emulsion thickness

Terminal Conductor
LTC3301

Curing:
200-300 °C for 60 minutes
Optimal Cure Conditions: 250 °C for 60 minutes

Thickness:
Cured film: 23 – 27 µm

Recommended Substrates:
Glass, Alumina, Polymer dielectric on metal

Thinner:
V-521

Cleaning:
Clean uncured resin with RV-540 followed by Acetone or similar solvent

Warranty:
Material guaranteed to meet specifications for 3 months from date of shipment.

Handling and Precautions:
Use in a well-ventilated area
Avoid contact with skin
Wash with soap and water

Storage:
Store in a dry location at 5 – 10 °C.
DO NOT REFRIGERATE.
Allow paste to come to room temperature prior to opening. Spatulate well before using, as settling may occur during storage.

Legend:

1) REACH compliant according to the latest * Annex XIV to Regulation (EC) of the European Parliament and of the council on the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH") by European Chemicals Agency and its subsequent amendments; the material does not contain any substance listed in Annex XIV.

2) RoHS compliant according to the latest * Directives (European Union) of Restriction of Hazardous Substances ("RoHS") and its subsequent amendments (including the exceptions related to Pb)
