Rent a Car Services

At Juan Santamaría International Airport, you may rent a car from any of the five largest rental car companies in Costa Rica. These car rental offices are located inside the airport's main terminal, past the Customs area. These companies welcome you, verify your reservations (if you have one), and inform you of current rates and promotions, so you can choose the one that suits you best. You and your party are then escorted to the rental car court, located near the airport, where they'll deliver the car you have rented.
