SAP / BI Consultant (m/f/d)

About YAGEO Nexensos

We are the experts for reliable temperature sensors, even at extreme temperatures and in demanding applications. As the global market leader for platinum thin-film technologies, we offer sensor elements and assemblies with the highest quality standards from -200 °C to +1,000 °C. We enable reliable and sustainable applications and thus make an important contribution to key issues of our time, such as clean air, energy efficiency and resource conservation. We support our customers from rapid prototyping to large-scale production and with constantly adapted production capacities in Europe and Asia.

These exciting tasks await you:

- In your role, you will support us with the changeover to our new owner's SAP system and help to ensure that everything runs smoothly during subsequent operations.
- In cooperation with the various specialist departments and global IT, you will develop solutions, coordinate problems and implement new requirements in the SAP environment.
- You are the first point of contact for all matters relating to Microsoft Power BI, from requesting and creating new reports to providing support with specific issues.
- Creating the relevant documentation and conducting internal training for employees rounds off your area of activity.

Your Profile:

- Completed Bachelor's degree in computer science, related fields or extensive professional experience
- Several years of professional experience in a similar position
- Experience in consulting in the SAP environment including sound knowledge of SAP modules and processes
- Expertise in the development and management of PowerBI reports
- Ability to work in a team and interact with stakeholders (e.g. management, internal departments and external partners)
- Very good written and spoken English skills
