About YAGEO Nexensos

We are the expert for reliable temperature sensors, also at extreme temperatures and in demanding applications. As the world market leader in platinum thin-film technologies, we offer sensor elements and assemblies with the highest quality standards. This enables the creation of reliable and sustainable applications, allowing us to make a meaningful contribution to key global challenges such as promoting clean air, energy efficiency, and resource conservation. After years of growth in the Heraeus Group, we have recently become part of the YAGEO Group since April 1st, 2023. This allows our sensor business to grow further so we can exploit our synergies in the best possible way.

What you can expect:

- In your role as "Intern / Working Student (m/f/d) Sales & Customer Service" you will be responsible for administrative support in the Customer Service area.
- You will also be responsible for creating quotations, orders and delivery notes in SAP.
- You will maintain our customers' master data and create evaluations and reports.
- Furthermore, you will support the sales team.
- The maintenance of customer contacts as well as the commercial processing of various tasks in the SAP system complete your job profile.
- Connect theory and practice, while working 20 hours per week with us and dive into the exciting world of Nexensos.

What you bring with you:

- Very good command of written and spoken English
- First experience in customer service or sales is desirable
- Strong knowledge of Office 365
- First Experience with ERP Systems
- A valid certificate of enrollment, for the entire duration of the assignment.
