

Light is more
than you can see

Heraeus Noblelight specialty light sources

We make light productive -
photonics-based solutions from UV to IR

Whether you wish to optimize existing applications or win new markets, Heraeus Noblelight offers efficient, well thought-out and long-life solutions that give you a competitive edge permanently.

Worldwide, the first address for productive lighting solutions from ultraviolet to infrared. We offer well-engineered, reliable and customer-optimized light systems. Profit from a significant productivity, product enhancement and optimized energy consumption in industrial, scientific and medical applications.

The solution for your process challenges have the highest priority to us.
Rely on the acknowledged Heraeus quality!

Productive light improves economic efficiency, environmental protection and innovation. With our technologies, we are active in many industries, from analytical to automotive or semiconductors and water treatment.

In our applications competence centers for UV and IR lamps, we provide unique support all over the world: customers' materials can be tested under practical conditions and processes can be optimized. In addition, Hanau has an accredited measuring laboratory that offers its know-how and takes customer-specific measurements.

Heraeus Noblelight is part of the Heraeus technology group, a globally active family-owned enterprise. Within the Heraeus group, we have direct access to fundamental technologies and high-quality materials such as quartz glass, important precious metals and special materials.
